Re: Microsoft Settlement

Please settle this case ASAP. AOL can't produce a competitive product, so it has to litigate out its' competition. I have used both AOL's "NetScape" browser as well as Microsoft's "Internet Explorer" browser and Microsoft's is FAR superior. Let the consumer decide like they always have in the past and save the consumer (we taxpayers) from paying for AOL's latencies in the courtroom. Let us shift our focus to national security problems rather than AOL's insecurities.
